BioWin Day

The BioWin Day is the international networking event that BioWin, the Health cluster of Wallonia, organizes every 2 years.

This event aims to **gather all stakeholders active in the health biotechnologies and medical technologies sector** so they can share their **knowledge and expertise** regarding scientific and/or business-oriented issues to **stimulate innovation and boost economic activities in the region.**

This year, as the Cluster celebrates **15 years of innovation**, the event will be a great opportunity to **look back on the successes** of the last few years but also **to look ahead and address the next challenges...**
