HC NEXT « Healthcare Companies Booster » – Corporate Capabilities

1 About us.

Let's get acquainted

Introduction

HC NEXT in a nutshell

We are a healthcare development consultancy helping to translate innovative ideas into structured and actionable product development plans.

We want to speed up and derisk drugs and medical devices developments to ensure that each innovation becomes a product to patient's benefit.

We work with pharma companies, biotechs, medtechs and e-health startups, SMEs spin-offs and academic institution spin-outs.

Our global, pragmatic and result-oriented approach integrates rigorous project management to your medical developments. It allows us to strengthen it and fasten your access to market.

Our mission

HC NEXT's mission is to speed up and derisk drugs and medical devices developments to ensure that each innovation becomes a product to patient's benefit.

“

About us

Co-founders

WHO WE ARE

HC NEXT is the result of a partnership between two experienced consultants in the lifescience industry: Elodie Fontaine and Sylvain Josse.

Elodie has just over 20 years of experience in the drug and medical device industry. She has held various positions in marketing, clinical development and strategic portfolio management. She holds a master degree in Biology and a Masters in Innovation and Entrepreneurship from ESCP.

Sylvain trained as a chemical engineer and then specialized in project management at the École Centrale de Paris. He has worked in the pharmaceutical and medical device industries as a project manager and coordinator on product development projects.

About us

Your healthcare project management expert

WHAT WE DO

Many promising treatments never see the light of day, not because they are ineffective or unsafe products, but often because of organizational problems.

As the co-founders could not find any consulting company specialized in both project management and health, they saw an opportunity to create HC NEXT.

Since then, they have been advising numerous companies in the Lifesciences sector on project management.

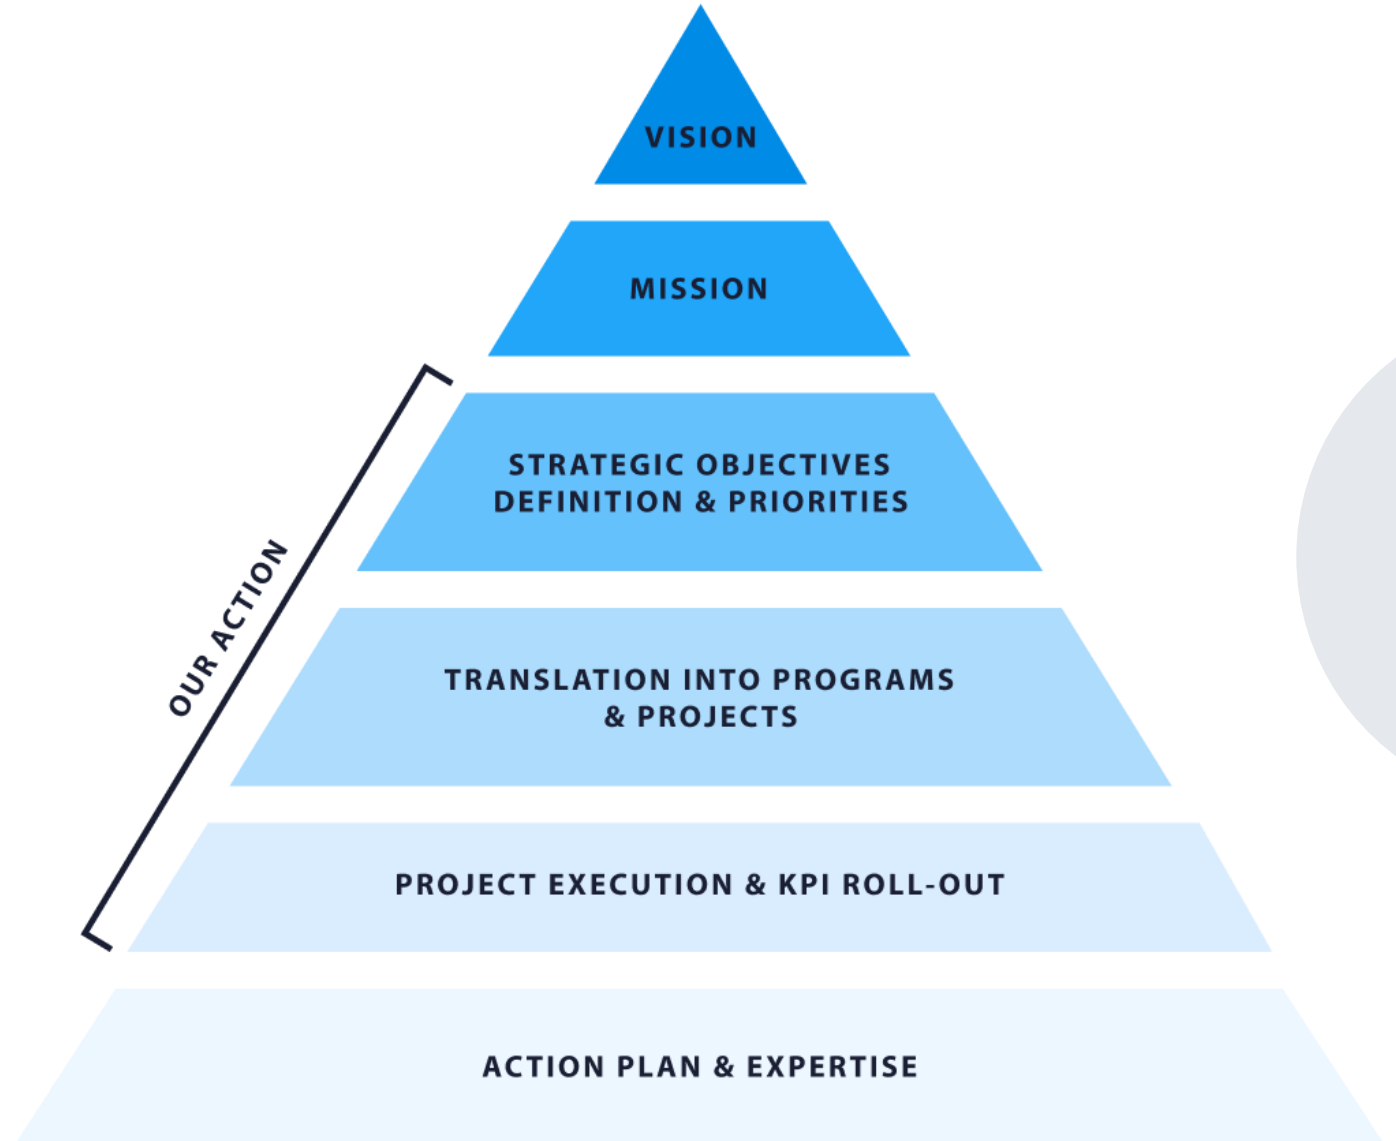

About us

Positioning

WHERE WE CAN SUPPORT

We are pioneers in healthcare project management consulting. We give you the means to transform your vision into a detailed action plan.

Our field of action positions us at the interface between strategy and operations.

Pharma

Biotech

Medtech

e-health

About us

An integrated CSR approach

OUR IMPACT

Since HC NEXT was created, we have wanted to integrate human and environmental commitments. In our daily actions as well as in the development of our business, we seek to limit our impact on the planet.

At the same time, we attach great importance to the relationship with all our stakeholders: suppliers, service providers, clients, employees. We strive to be responsive to their demands and to take their constraints into consideration. We want to develop healthy and positive relationships. This is achieved through the implementation of a CSR charter including indicators that we monitor regularly.

Our services.

Operations oriented services

Our services

Operations oriented services

HOLISTIC SUPPORT ACROSS ALL STAGES

HC NEXT has the skills and expertise to provide support across all stages of the drug or medical device development process from late-stage discovery research through to market access and post-approval changes.

CROSS-SECTORIAL APPROACH

Our product development team is highly experienced in the development of medicinal products, working across a wide range of product types and spectrum of therapeutic areas for pharmaceutical, biotech, medtech and e-health companies.

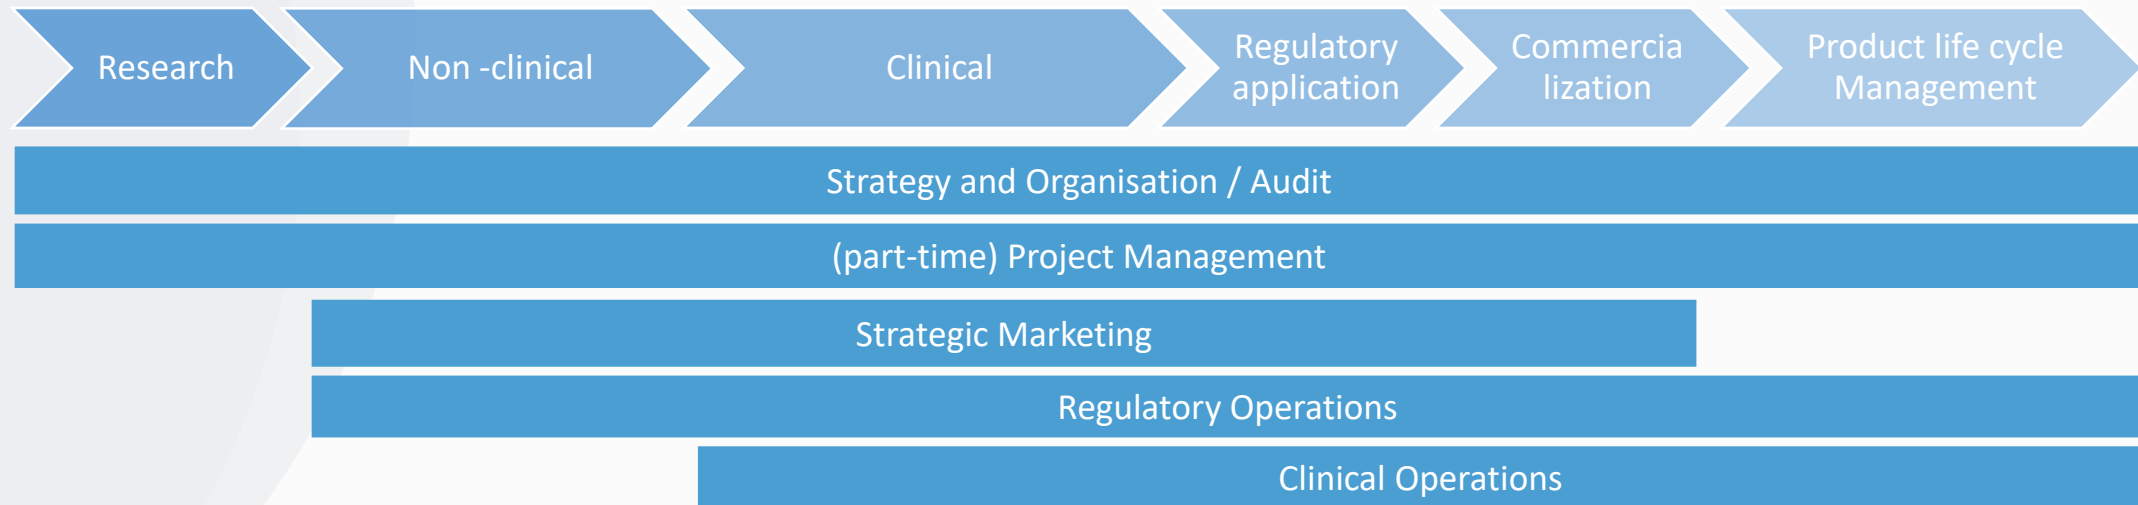

Our services

Where we can help

OUR EXPERTISE

We provide strategic and operational input at all stages of the development process

Our services

Our experts network

A WIDE RANGE OF SPECIALISTS

HC NEXT have an extensive network of **external consultants** who can provide specific expertise at any level of the product development process. We consolidated that **network in the pharma, biotech, medtech and e-health sectors** and activate these experts at any time needed along your development project.

Some relevant examples of expertise:

Pharma/biotech:

Quality by Design (TPP) / development plan
Market access
Regulatory / quality activities
CMC / toxicology / preclinical
CDMO / CRO
Clinical activities...

Medtech/e-health:

- Biostatistics and data management
- Design review / verification / validation
- Benefit / risk assessment
- Preclinical / clinical activities...

Our promise.

What we commit to

About us

Values and commitments

HOW WE WORK

OPENNESS AT THE HEART OF OUR EXCHANGES

At HC NEXT, we are aware that our involvement can sometimes shake up habits and opinions. The solutions we propose are not necessarily complex, but they are not always easy to accept. With goodwill, we always strive to be honest and objective in order to share the means to concretely improve your projects.

RIGOUR FOR CONCRETE RESULTS

By definition, project management demands great rigor. When it comes to the health sector, this rigor is increased tenfold. We combine this with a results-oriented vision. Our objective is not simply to implement changes but to see the impact of these changes on your results.

Our promise

What you can expect

OUTSIDE VIEW

The healthcare industry is evolving at a rapid pace. Caught up in day-to-day activities, it is sometimes difficult to take a break and step back. Thanks to our external viewpoint, we bring a fresh eye to your problems.

INTELLECTUAL HONESTY

To move your projects forward, the right solution is not always the easiest to hear. At HC NEXT, we are committed to always being honest with you. We will support you with kindness, but also with objectivity.

COMPREHENSIVE VIEW

The development of a drug or medical device requires years of work, millions of euros of investment and dozens of different areas of expertise. It is at times complicated to maintain a comprehensive view of the project. For this, you can count on us!

SPECIFIC APPROACH TO PROJECT MANAGEMENT

Project management has already proven itself in many industrial sectors. We are now applying it to the healthcare industry. This approach allows for greater efficiency when developing innovative products in order to maximise their value.

TAILOR-MADE SUPPORT

Each client, product and project has its own specific needs. This is why we start each partnership with an assessment. This enables us to offer you tailor-made support, either on a one-off basis or in the long term.

RESULT DRIVEN

Since a health product is a product unlike any other, we are committed to finding a solution to the development challenges you submit to us.

Our promise

What our clients say

TESTIMONIALS AND ACCOMPLISHMENTS

« We turned to HC NEXT for access to **rare drug development skills**. After a relevant analysis of our project, the company made us a support proposal with a work plan and an associated budget. Very flexible, they were able to adapt their proposal to our problem. After several months of collaboration, we were able to benefit from the **experience, rigor and consistency of the team**. Several missions have already been granted to good, within suitable deadlines. »

« HC NEXT provides a qualitative support service for our product development. With their **extensive experience in clinical operations**, they allow a young **biotech startup** like ours to have a better operational vision of the actions to be taken to fill the gaps and **comply with new regulations**. »

What do our clients like most about HC NEXT

- Building a true, long-term partnership between us and our clients
- Professional, expert, flexible team
- A truly hands-on, pragmatic and results-oriented approach
- Access to a broad range of subject-matter experts
- High quality work with complete transparency and intellectual honesty

Contact

We kindly but seriously
challenge habits, routine, bias,
status quo, prejudices

Dare to be different!
